Return to ACL with any remarks you care to make.

Dear Mr. Lundahl:

Here is the first issue of Search, a new publication of Aero Service's Exploration Division. The quarterly magazine will report on our activities and the ever-broadening scope of exploration geophysics.

This first issue reports on water exploration in the Mid East, oil exploration under the North Sea, and mineral exploration in Ireland. Resources inventorying in British Guiana and Surinam is mentioned, and we report on infrared mapping over a rumbling Hawaiian volcano. Another feature is a story about an aurora rendezvous high over the wastes of central Alaska.

We welcome your comments on Search since we intend to edit it to. serve our clients' needs.

Sincerely,

AERO SERVICE CORPORATION
